

# FIVE DAY ACTIVITY PLAN

- Grab counting bears & under-the-bed storage bin.
- Add water!
- Add a variety of items from your kitchen.

- Add one bear in each section of the muffin tin.
- Put painter's tape in each direction to close them in.
- Place scissors to the left of the cutting activity and invite your child to cut the bears free.

- Tape white paper to the tabletop.
- Add boxes to make groups of two.
- Place one of each matching pair into the first box and place the bear bin to the left.
- Talk about the colors and sizes.

- Place the paper on the table and add columns and rows.
- Count out a few counting bears for the graph. Put the bears on the left of the paper.
- Number the graph on the left and add the colors to the bottom of the chart.
- Start to graph!

- Just like Match the Lines found in set one activity cards!
- Draw several lines using colored markers.
- Place the bears to the left.
- Invite your child to practice nonstandard measurement using the bears.
